

Seamless Activation Process

iPhone/Apple devices:

- Step 1: Open the **Settings** app on your device.
- Step 2: Tap **Cellular** in the menu.
- Step 3: Scroll down to find **eSIM** located below "Primary

Samsung/Android devices:

- Step 1: Open **Settings** on your Samsung/android device.
- Step 2: Tap on **Connections**, then select SIM Manager.
- Step 3: Choose **eSIM** to activate your electronic SIM.

You'll also need to activate data roaming, but don't worry – *WhatsApp* will work just fine.

Here's a 2-step process to do it:

Open Settings on your device.

For iPhone/Apple devices: Tap **Cellular** and select **eSIM**.

For Samsung/Android devices: Go to **Connections** and choose **Mobile Networks**.
