

How to install an eSIM on a device?

⚠️ Connect your device to Wi-Fi / Mobile Data and make sure you have a good WiFi / network connection

Please prepare other device, e.g. another phones, tab, or laptop to scan

- 1 Go to “Settings” > Tap “Add eSIM”
- 2 Scan eSIM QR code
- 3 Choose your default line for data
- 4 Turn on “Mobile data” and “Data roaming”
- 5 Finished
